

Offering additional reach and durability - the SpaceVac Internal PRO System helps advanced users and teams looking for extra reach to unlock increasing heights of up to 15m.

The **PRO** system offers this increased reach by utilising a high grade 4K Carbon Fibre blend which both reduces weight and flex - allowing poles to stack higher whilst remaining both comfortable and easy to operate.

Featuring 7.5 cleaning poles and a selection of 4 cleaning heads and 5 specialist tools and brushes, the **PRO** system provides a versatile cleaning solution, that can even interconnect to create custom shapes and configurations for cleaning difficult to access areas!

About our Internal Pro Poles:

- **Appearance:** Plain carbon main body with 2x2 ground twill finish on male end.
- **Make up:** Standard modulus carbon, 3k 2x2 twill carbon.
- **Weight:** 298 grams

Suggested Add-Ons:

Endeavour Internal Vacuums

Spacesuit

Explorer Camera System

Higher. Faster. Safer.

SPACEVAC PRO 38mm

Caution Carbon Conducts Electricity
Do not use in electrical storm
or near overhead power lines.

Max: 15.2m*
Min: 12m

Whats Included: Internal Pro 38mm / 1.5"

- Pole Length: 1.6m / 5ft 2"
- Pole Diameter: 38mm / 1.5"
- Carbon Material: Glass Fibre / Carbon Fibre Composite
- No of Poles enclosed: 7.5
- Enclosed Pole Length: 12m / 39ft
- Max Working Height: 13m / 42ft
